

ALPHA OMEGA EPSILON IOTA CHAPTER

Spring 2019 Newsletter

Recruitment

14

- 12pm Building Catapults -
- 5pm Game Night - Recruit

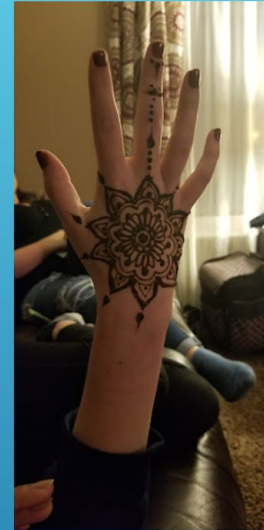

16

- 12pm Science Experiment

This year for recruitment, our theme was Bill Nye the Science Guy! Here were some of the events we held in January 2019. What better way to kick off recruitment the to build some marshmallow catapults followed by a good time at game night later in the day.

Fundraising

A special thanks to our sister, Maddie Wilson for putting together this wonderful flyer for our chapter's pop/bottle drive and for holding an awesome henna party at her house. Check out these cool designs!

Volunteering

It was a great MLK Day to do some volunteer work in downtown Detroit. This picture was taken at a shelter where donations for clothes and toiletries were to be sorted and stacked on shelves later to be given to the people who need them.

Day Away

We love when Day Away arrives! It's a time when we get to meet so many of the other sisters and get to know more about each other through team building activities.

Big/Little Reveal

Best part about Day Away are the Big/Little reveals. Take a look at the reactions captured from our Littles as they fine out who their Bigs are! It'll definitely make you smile 😊

Initiation

The Iota Chapter happily welcomes these three lovely ladies into the Alpha Omega Epsilon Sorority!! We would like to introduce you all to: Melissa Denstaedt, Cinya Hou, and Sara Al-Delahmawi

Rock Painting

It's a good night when rock painting is involved. Thankfully it didn't rain this time, but the cold was still not pleasant to be in. It was all worth it in the end once the rock was finished!

Alumni

Congratulations to these girls reaching alumni status! The Iota chapter wishes you all the best of luck in your futures!

Left to Right: Kelsey Vukas, Morgan Henson, and Nina McDaniel
